OBJECTIVE

I have successfully achieved my goals in my life, I am going to present my qualification and personal information.

Working as a Web Developer since last six months, I am undergraduate in 4-year degree of BS (Hons) in ComputerScience, I think I can survive in any company and in any situation I believe myself as a professionalweb developer. I have learned following skills while working as a developer.

- To manage large scale business application
- To manage database especially (MySQL)

I have the hunger to work with new technologies especially PHP/jQuery frameworks.

I can design, build and maintain the website from scratch using my experiences.

I am having the following skills

HTML, CSS, jQuery, AngularJS, ReactJS, Custom PHP, Laravel

Using these technologies I can design, build, maintain website's also I can also apply new technologies.

I have great leadership skills while working in a team, individually, critical, pressure situation. I have good communication skills I can easily handle clients independently for example live support or dealing on Skype etc.
